

During this time of uncertainty, misinformation is being circulated. The Federal Emergency Management Agency (FEMA) has compiled a list of some frequent myths surrounding COVID-19. Here is a quick list of facts:

- Currently, there is no national lockdown
- FEMA has not deployed military troops. Each state's governor is responsible for their state's response.
- You do not need to stockpile groceries or supplies. Only purchase what your household needs for one week.
- The federal government is not mailing stimulus checks at this time.
- Older adults are not the only people that are susceptible to COVID-19. Symptoms can range from mild to severe in a person of any age.
