

What is Home Sharing?

Home Sharing is an arrangement where two or more unrelated people share a home, each having private space along with shared common areas

Why do it?

It addresses the lack of affordable housing in Middle Tennessee by utilizing existing housing and providing an innovative solution that builds intergenerational community!

Specific Benefits of Home Sharing for the Home Owner

Extra income to help cover housing costs

Possible help around the house with tasks like grocery shopping, cleaning, occasional light maintenance work

New, shared experiences with a vetted match

A sense of security by having another person in your home

How does it work?

Each party - the Home Owner and Home Sharer would submit applications to be thoroughly vetted by The Council on Aging along with partner agencies in order to ensure safety and compatibility. This would involve background checks, home visits, and clear lease agreements. Once that process is completed, a match would begin the sharing experience!
